4 **Listing of Claims**

5 Claim 1 (Currently Amended): An in-vehicle audio browser comprising:

6 a first set of buttons configured to select a preset item;

7 a second set of buttons configured to move forward and backward
8 through a list of items;

9 a third button configured to select ~~among~~ between a first list of items
10 and a second list of items plurality of bands associated with the audio
11 browser, wherein the first list comprises a first plurality of bands including
12 primary audio control bands and the second list comprises a second
13 plurality of bands including conditional audio control bands; and

14 a fourth button configured to activate a function that varies
15 depending on the selected band.
16

17 Claim 2 (Currently Amended): An in-vehicle audio browser as recited in
18 claim 1, wherein the first plurality of bands includes a radio band, and a CD player
19 band, and a digital media band.
20

21 Claim 3 (Currently Amended): An in-vehicle audio browser as recited in
22 claim 1, wherein the second plurality of bands includes:

23 ~~a radio band;~~

24 ~~a CD player band;~~

25 a digital media band;

1 a navigation band;
2 a contact list band; and
3 a telephone task band.

4
5 Claim 4 (Original): An in-vehicle audio browser as recited in claim 4,
6 further comprising a display configured to identify the selected band.

7
8 Claim 5 (Canceled): An in-vehicle audio browser as recited in claim 1,
9 wherein the plurality of bands includes a set of primary audio control bands and a
10 set of conditional audio control bands.

11
12 Claim 6 (Currently Amended): An in-vehicle audio browser audio as
13 recited in claim 51, wherein the primary audio control bands affect the audio
14 control bands.

15
16 Claim 7 (Currently Amended): An in-vehicle audio browser as recited in
17 claim 51, wherein the primary audio control bands affect the audio output when
18 selected.

19
20 Claim 8 (Original): An in-vehicle audio browser as recited in claim 1,
21 wherein the fourth button is configured to save currently playing audio output.

22
23 Claim 9 (Canceled): An in-vehicle audio browser as recited in claim 1,
24 wherein the fourth button is configured to save currently playing audio output.
25

1 Claim 10 (Original): An in-vehicle audio browser as recited in claim 1,
2 wherein the fourth button is configured to select among a current task.

3
4 Claim 11 (Original): An in-vehicle audio browser as recited in claim 1,
5 further comprising a fifth button configured to select among a plurality of audio
6 sources.

7
8 Claim 12 (Original): An in-vehicle audio browser as recited in claim 1,
9 wherein the audio browser stores various information, and wherein the stored
10 information is synchronized with an external computing device.

11
12 Claim 13 (Original): An in-vehicle audio browser comprising:
13 a first set of buttons configured to select a preset item;
14 a second button configured to select between a set of primary audio
15 control bands and a set of conditional audio control bands; and
16 a third button configured to select a band from the set of bands
17 selected by the second button.

18
19 Claim 14 (Original): An in-vehicle audio browser as recited in claim 13,
20 wherein the primary audio control bands affect the audio output when selected.

21
22 Claim 15 (Original): An in-vehicle audio browser as recited in claim 13,
23 wherein the conditional audio control bands do not affect the audio output unless
24 some action on the band requires audio output.
25

1 Claim 16 (Canceled): An in-vehicle audio browser as recited in claim 13,
2 wherein the conditional audio control bands do not affect the audio output unless
3 some action on the band requires audio output.
4

5 Claim 17 (Original): An in-vehicle audio browser as recited in claim 13,
6 further comprising a fourth button configured to activate a function that varies
7 based on the band.
8

9 Claim 18 (Original): An in-vehicle audio browser as recited in claim 13,
10 further comprising a fourth button configured to activate a function that varies
11 based on the selected band.
12

13 Claim 19 (Original): A user interface for an in-vehicle audio browser, the
14 user interface comprising:

15 a source button to select between a set of primary audio control bands
16 and a set of conditional audio control bands;

17 a band button to select a band from the selected set of audio control
18 bands; and

19 a display device coupled to the band button for displaying the band
20 currently selected by the band button.
21

22 Claim 20 (Original): A user interface as recited in claim 19, wherein the
23 primary audio control bands affect the audio output when selected.
24
25

1 Claim 21 (Original): A user interface as recited in claim 19, wherein the
2 conditional audio control bands do not affect the audio output unless some action
3 of the band requires an audio output.

4
5 Claim 22 (Original): A user interface as recited in claim 19, wherein the
6 primary audio control bands include a radio band and a CD player band.

7
8 Claim 23 (Canceled): A user interface as recited in claim 19, wherein the
9 conditional audio control bands do not affect the audio output unless some action
10 of the band requires an audio output.

11
12 Claim 24 (Canceled): A user interface as recited in claim 19, wherein the
13 primary audio control bands include a radio band and a CD player band.

14
15 Claim 25 (Original): A user interface as recited in claim 19, wherein the
16 conditional audio control bands include a navigation band and a contact list band.

17
18 Claim 26 (Original): One or more computer-readable media having stored
19 thereon a computer program that, when executed by one or more processors,
20 causes the one or more processors to:

21 display a currently selected car radio band, wherein the car radio
22 supports a primary audio control band and a conditional audio control band;

23 changing the currently selected car radio band in response to
24 activation of a first car radio button; and
25

1 moving through a list of items associated with the currently selected
2 car radio band in response to activation of a second car radio button.

3
4 Claim 27 (Original): One or more computer-readable media as recited in
5 claim 26, wherein the one or more processors further select a particular item in the
6 list of items associated with the currently selected car radio band using a set of
7 preset buttons.

8
9 Claim 28 (Original): One or more computer-readable media as recited in
10 claim 26, wherein the primary audio control band includes an AM radio band, an
11 FM radio band, and a CD player band.

12
13 Claim 29 (Original): One or more computer-readable media as recited in
14 claim 26, wherein the conditional audio control band includes a navigation band
15 and a contact list band.

16
17 Claim 30 (Canceled): One or more computer-readable media as recited in
18 claim 26, wherein the primary audio control band includes an AM radio band, an
19 FM radio band, and a CD player band.

20
21 Claim 31 (Canceled): One or more computer-readable media as recited in
22 claim 26, wherein the conditional audio control band includes a navigation band
23 and a contact list band.

24
25

1 Claim 32 (Original): One or more computer-readable media as recited in
2 claim 0, wherein the one or more processors further save currently playing audio
3 content in response to activation of an ACT button on the car radio.
4

5 Claim 33 (Original): One or more computer-readable media as recited in
6 claim 26, wherein the one or more processors further dial a phone number
7 currently displayed on the car radio in response to activation of an ACT button on
8 the car radio.
